

# grade5.13

## democratic grading management of climbing routes

---

Climbers might not agree with the grade assigned by a route setter. This might lead to poor climber experience at your Rock Climbing Gym, leading to loss of interest in rock-climbing and gym drop outs.

*grade5.13* allows for democratic grading. It is a web-app that allows the route setter to assign an initial grade to the climbing route on the Gym Owner Dashboard.

Climbers are then able to check the Setter's Grade on the Climber Dashboard. They may agree to or register their own grade as per their climbing experience.

Many climbers can register their grades - all of their inputs get factored into an Average Grade

# Gym Owner Dashboard

GYM A  
ROUTE DETAILS

Name	Setter Grade	Edit	Average Grade	Rating	Delete Route
Route 1	5.5		5.5	3/4	
Route 2	5.5		5.5	4/4	
Route 3	5.12c		5.9	4/4	
Route 4	5.8		between 5.7 and 5.8	4/4
